GRILLGRATE SET FOR GREEN MOUNTAIN GRILLS®

We call them “sear stations” for a reason; GrillGrates turn pellet smokers into pellet grills. They trap and concentrate heat and conduct it up the rails for great searing while the valleys sizzle juices for added flavor. GrillGrates typically add 100 degrees or more at the grate surface on pellet grills. Every set comes with a GrateTool which is part fork, park spatula that fits between the rails to get under your food and lift it without scraping. **GrillGrate is not affiliated with GMG Products LLC.*

GRILLGRATE SET FOR **BIG GREEN EGGS**®

GrillGrates provide protected, high-heat grilling in kamado grills. The bottom plate blocks hot rushing air and flames from charring and drying out food, keeping the juices sizzling with the food instead of feeding the flames. GrillGrates for kamado grills are used on top of the existing grate surface. Every set comes with a GrateTool which is part fork, park spatula that fits between the rails to get under your food and lift it without scraping. **GrillGrate is not affiliated with Big Green Egg.*

GRILLGRATE SETS FOR WEBER GRILLS

Get the #1 Grill Surface for the #1 Grill. There's a GrillGrate set for your Weber Grill, no matter the size, shape or fuel source. Every set comes with a GrateTool which is part fork, park spatula that fits between the rails to get under your food and lift it without scraping. *GrillGrate is not affiliated with Weber-Stephen Products LLC. Genesis, Spirit and Summit are registered trademarks of Weber-Stephen Products LLC.

WEBER GAS GRILLS

GrillGrates are a must-have accessory for your Weber gas grill. Whether you sit them on top of your current grates, or use them to replace your factory grates, GrillGrates will make your old gas grill better than new. Made of hard anodized aluminum, they never rust. GrillGrates are reversible, interlocking panels, giving you two grill surfaces in one. Even out those hot and cold spots with GrillGrates and produce juicier, more flavorful food.
